Dear Harold - Feb 4, 1990

Glad to hear that you are recovering well. I'd not heard of the sleep problems you describe but people here say that they occur. Nobody has a good explanation. I suppose that any such trauma to the body is bound to produce such effects

I've been busy finding ways to market the new book w/out spending $ — something you've (I'm sure) had a bit of experience with.

Alex is now getting physical therapy via the public schools free of charge! We've put him on a 1,000 calorie diet (he weighs more than 40 lbs & is only 25 months old.)

Katherine is job-hunting but thankfully got 6 months of severance.

Vince Salandria, who's remarried, is doing well. His son, while on probation, used drugs again & is back in prison. Vince hopes some day he can kick the habit. They have some contact - Ernie has come to accept why Vince turned him in for murder.

Give my best to Li.

Best wishes for continued recovery —

Gary

Love and Joy to You
in a Season of New Hope
